Selection Process

1. Each event an athlete has applied for on their 2017 Nova Scotia Jeux de Canada Games Athletics Team application form will constitute an event application.
2. Each event application from each athlete will be placed in one of the four selection criteria groups as defined below.
3. The event application order will be determined by two factors:
 - a) All event applications in lower numbered selection criteria groups will be considered before any event applications in higher numbered selection criteria groups.
 - b) Within the selection criteria groups, event applications will be ordered as follows:
 - 1st) Achieved qualifying standard - ranked by percent better than qualifying standard.
 - 2nd) Percentage off qualifying standard.
$$\frac{|(\text{Performance} - \text{Standard})|}{\text{Standard}} \times 100\%$$
4. The selection committee will review, in order, each event application until the team compliment is reached.
5. For each event application the selection committee will determine if any of the following conditions have been met:
 - a) the event has been filled to capacity
 - b) the team compliment for the athlete's gender has been filled to capacity.
 - c) the team has been filled to capacity.

If any of these conditions have been met, an athlete cannot be selected in that event and the committee will move to the next event application. If none of the conditions have been met the athlete will be named to the team in that event.

6. Each event application can only qualify an athlete for the specific event in the event application. The following exceptions apply for selection to a relay team.
 - For the 4x100m, event applications for the 100m will be used to fill the 4x100m to a maximum of four athletes.
 - For the 4x400m , event applications for the 400m will be used to fill the 4x400m to a maximum of four athletes.

7. Hand times will not be accepted for events below 400m in length. For event above 400m, hand times will be converted to 'electronic' equivalencies by adding 0.24' to the hand-timed result.

Where electronic times are used and ties exist between applications, performances with wind readings not greater than 2.0 meters per second will be given priority in the selection process over a performance where wind reading equipment is not available.

Note: Reports on an athlete behavior (past and present) in ATHLETICS NS sanctioned meets and on team trips or camps will be considered during the selection process. The ATHLETICS NS Board of Directors reserves the right to deny an athlete selection to the team or to remove an athlete from the team based on these reports.
